

BIOTECHCROSSING™
THE LARGEST COLLECTION OF BIOTECH JOBS ON EARTH

BiotechCrossing Now Offers More Jobs Than Ever Before!

February 11, 2008

Pasadena, CA—BiotechCrossing, the Internet's smartest and most effective biotechnology job board, now offers its users more jobs than ever before with hundreds of new jobs added each week, making it the internet's leading site for finding the best jobs in the biotechnology industry. The number of available jobs has skyrocketed in recent weeks with an improved job collecting process which makes finding the perfect biotech job easier than ever before!

BiotechCrossing is a unique job board—bringing together jobs from employer websites and job boards, rather than traditional job boards which rely on employers to post jobs. It presents jobs gathered from employer websites, printed newspapers and ads, and other online resources. In addition, BiotechCrossing does not charge employers to post jobs on the site, an advantage that increases job selection significantly.

The job board costs users \$29.95 per month (with a free seven-day trial before the fee takes effect), which also provides access to more than 25 of EmploymentCrossing's other industry-specific job boards. Users who are still in school can also access the website for free. Students may obtain their school's promotion code from their career centers to sign up for their free accounts.

BiotechCrossing also brings users the most pertinent news and discussion topics in the biotechnology field. Each week, articles are posted that address the industry's most current trends and happenings, as well as the job-search tactics of biotechnology professionals.
