“Keeping in view the growing needs of biotech professionals looking for greener pastures in other industries, BiotechCrossing has opened the doors for members to access our other niche job boards,” says A. Harrison Barnes, CEO of BiotechCrossing. “These job boards offer exclusive openings from a wide variety of industries, including [sciences](#), [pharmaceutical](#), [clinical research](#), [healthcare](#), [information technology](#), and many more.”

All the 100-plus job boards are similar in look and feel to BiotechCrossing and are backed by extremely powerful search functionalities, including the ability to:

### Search by Job Title

All of the job boards have compiled a list of the [top job titles](#) in their respective industry and displayed said list on the given homepage. “Job seekers can easily search for their preferred job titles with a single click,” adds Barnes.

### Search by Geographic Location

Every single one of the 100-plus job sites allows members to search for jobs geographically. “Job seekers can target their [job searches](#) by country, state, city, zip code, radius in miles, and/or an extremely handy US map,” Barnes notes.

### Search by Keywords

All of the job boards also offer keyword search, whereby [job seekers](#) can search for specific keywords in job titles and/or job descriptions.

“The current economy is teetering on recession, and layoffs are rampant. The niche concept in job search has outsmarted the traditional approach, and BiotechCrossing and its affiliate niche job sites have gained immense popularity from their collections of [exclusive jobs](#),” says Barnes.

BiotechCrossing charges \$29.95 per month from job seekers, although the website is absolutely free to members for the first seven days. A BiotechCrossing member can also access the other 100-plus Crossing sites absolutely free for the first seven days.
