EmploymentCrossing Launches CADD Job Site, CADDCrossing, That Seeks to Gather and Consolidate Every CADD Job Opening

June 02, 2008

EmploymentCrossing, one of the world's largest job-board operators, announced on Monday the launch of CADDCrossing. As part of the EmploymentCrossing job-site franchise, CADDCrossing seeks to list every CADD job in the United States in one convenient location. Using proprietary technology, CADDCrossing monitors the CADD jobs on other job websites and other sources, and displays every single CADD job it can find. CADDCrossing's goal is nothing less than to show job seekers every CADD job available today.

Pasadena, CA — The need for computer-aided drafting and design (CADD) professionals is growing in the United States. Current employment trends reflect the fact that CADD professionals are always in demand and that CADD jobs are currently highly sought after. The US Bureau of Labor Statistics has stated that competition for jobs in this category is very high. Accordingly, those candidates who have earned a degree in CADD are more likely to find employment in this area.

With all that in mind, the newly launched CADDCrossing (www.caddcrossing.com) aspires to list all kinds of CADD jobs, details on career advancement opportunities, and employment information for CADD job seekers. With more than 4,500 jobs currently posted, CADDCrossing is already the largest job board in the world for those excelling in the design, engineering, electrical design, and civil engineering industries.

"In this market, it is extremely hard to get a job with a recruiter, and recruiters typically work with very few companies," says A. Harrison Barnes, founder and CEO of CADDCrossing. "Job openings that are not widely known or publicized are the easiest jobs to get."

CADDCrossing was launched to help CADD professionals sort out the opportunities that they may not find out about otherwise. Unlike other job boards, the site focuses solely on CADD jobs, and it doesn't charge employers to post jobs.

In what is perhaps a reflection of the current CADD job market, the most popular searches on the website are:

- CADD jobs
- CAD jobs
- Auto CAD jobs
- CAD drafting jobs
- CAD design jobs
- CAD operator jobs
- CAD cam jobs
- CAD designer jobs
- CAD technician jobs
- CAD manager jobs
- Freelance CAD jobs

Press Release

- Entry-level CAD jobs
- Jobs in CAD
- CADD drafting jobs

“CADDCrossing is a research company that works for job seekers,” Barnes says. “We seek to connect you to employers.”

Barnes emphasizes that CADDCrossing is committed to finding new sources of jobs daily.

“There is an astonishing number of CADD job openings out there. We want to find them all,” he says.

CADDCrossing charges \$29.95 a month to view its job-opening research. As part of the site’s launch special, however, CADDCrossing is offering a free, seven-day trial to allow job seekers to familiarize themselves with the service.
