CLevelCrossing, a Groundbreaking C-Level Job-Opening Research Institution, Launches with More Than 7,000 C-Level Jobs

April 21, 2008

Pasadena, CA — Despite job market reports that C-level job growth will change little or not at all, CLevelCrossing (www.clevelcrossing.com), an affiliate of EmploymentCrossing, the fastest-growing job-opening website, has launched with 7,000-plus C-level jobs.

“In today’s job market many people are complaining of a lack of jobs. I don’t think this is so. The fact of the matter is job seekers cannot effectively locate all the job openings that are disbursed among numerous webpages,” says CEO A. Harrison Barnes.

“At CLevelCrossing we research and gather all the existing C-level job openings that we can find and post them on one convenient website.”

CLevelCrossing’s team of 500-plus researchers searches thousands of online resources and even more employer career webpages, constantly adding to its comprehensive selection of C-level jobs.

In addition, CLevelCrossing contacts employers on a daily basis to verify that their posted job openings are current and learn of new C-level jobs as quickly as they are released.

This groundbreaking C-level job website is affiliated with [EmploymentCrossing](http://www.employmentcrossing.com/) (<http://www.employmentcrossing.com/>), the main hub for a growing family of industry-specific job-search sites. Currently, job seekers can visit EmploymentCrossing to sign up for CLevelCrossing’s services.
