

HealthcareCrossing Offers World's Largest Collection of Healthcare Jobs

June 20, 2007

Pasadena, CA,—Searching for the right opportunity in the healthcare industry is now faster, more efficient, and easier than ever, thanks to the launch of the dynamic new website HealthcareCrossing. As part of EmploymentCrossing's growing family of industry-specific job-search sites, HealthcareCrossing is designed to help healthcare professionals find jobs that match their specific career goals and interests.

HealthcareCrossing (www.healthcarecrossing.com) features the world's largest collection of healthcare jobs from across the U.S. From medical billing and hospital administration jobs to positions for physicians and nurses, HealthcareCrossing provides the most accurate and extensive collection of healthcare positions anywhere. Job seekers can now visit HealthcareCrossing to search for opportunities that meet their individual requirements, including their preferences regarding location and company size.

HealthcareCrossing's staff of highly experienced researchers extensively monitors the hiring needs of more than 750,000 employers across the country. These specialists are dedicated to adding countless new healthcare opportunities to the site each day, including exclusive notices not posted on general employment sites.

"We're excited to welcome HealthcareCrossing into the growing family of Crossing employment sites. We hope more professionals will use our innovative online service to find positions that match their unique job-search needs," said CEO A. Harrison Barnes.

In addition to providing an extensive range of job listings, HealthcareCrossing features valuable original content, including in-depth articles and analysis of the people, companies, and stories affecting the healthcare industry.

Job seekers can now take advantage of the benefits of HealthcareCrossing with an exclusive 30-day, risk-free trial subscription. This exciting offer will allow professionals to explore the site and begin searching and applying for any of the countless healthcare positions from across the country at no cost.

The development of the Crossing employment sites has been inspired by the success of LawCrossing (www.lawcrossing.com), which features the largest collection of active legal jobs in the world, including more than 10,000 positions at top law firms, corporations, public-interest organizations, and government offices throughout the U.S.

Since its launch in July 2003, LawCrossing has become the world's largest legal-career-placement website. The company is another brainchild of Barnes, who also founded the hugely successful parent company of the Crossing employment sites, Juriscape, in 2000.
