Pasadena, CA — EmploymentCrossing (www.employmentcrossing.com), one of the world's largest job-board operators, announced today the launch of a nursing career site, NursingCrossing (www.nursingcrossing.com), that seeks to find and list every single job in the nursing field. As part of the EmploymentCrossing job-site franchise, NursingCrossing seeks to consolidate and list every nursing job in the market on its site. NursingCrossing researches jobs from tens of thousands of sources and does not charge nursing employers to post nursing job openings on its site.

Using a proprietary technology and EmploymentCrossing's staff of over 500 researchers, NursingCrossing monitors the nursing jobs on other job websites, hospital websites, clinic websites, and other healthcare employer websites and displays every nursing job it finds. NursingCrossing's goal is nothing less than to show job seekers every nursing job available.

"There are so many nursing jobs out there that job seekers do not know about," says A. Harrison Barnes, founder and CEO of NursingCrossing. "The number of jobs on hospital and clinic websites far surpasses what most job seekers see advertised on most job sites. By bringing those jobs that are on employer websites to job seekers in the nursing industry, we are giving them many more options than they would get with a traditional nursing job search on other commercial nursing job boards."

According to Barnes, the most popular nursing job searches on NursingCrossing have been:

- Travel nursing jobs
- Nursing travel jobs
- Jobs in nursing
- Nursing home administrator jobs
- Work-from-home nursing jobs
- Nursing home jobs
- California nursing jobs
- Nursing jobs in film industry
- Nursing jobs Cleveland, Ohio
- Nursing jobs California
- Florida nursing jobs

Press Release

- Arizona nursing jobs
- Traveling nursing jobs
- Nursing jobs in Hawaii
- Nursing jobs in Florida
- Hawaii nursing jobs
- California travel nursing jobs
- Nursing travel jobs Hawaii

“NursingCrossing is a research company, and our job is to find every nursing job out there for people in the nursing industry,” Barnes says. “We do not charge employers to post jobs with us, and we aggressively monitor the hiring needs of every healthcare employer we can find. NursingCrossing.com is a service that I believe will change the nursing industry and how people find jobs forever.”

NursingCrossing charges job seekers \$29.95 to look at its job-opening research. However, NursingCrossing is currently offering a free, seven-day trial to allow job seekers in the nursing field to familiarize themselves with the service. The free trial is available to everyone on NursingCrossing’s registration page for a limited time.
