Got a Socket in the Pocket and No Place to Go

[By Lancelot Larsen]

Perfect Curve, the proclaimed leader in designing award-winning home-organization products such as the CapRack36 System and the Shoe Organizer 10, has recently released something for those who can't keep their personal electronics charged enough and need something a little more convenient for their on-the-go lifestyles.

The patented Socket Pocket is a storage and charging device created for iPhones, iPods, BlackBerry devices, and pretty much any other cell phone or related electronic that can be accommodated, including PDAs, digital cameras, and Bluetooth earphones.

Install your Socket Pocket near any memorable outlet and place your phone or iPod inside the pocket for charging. The bottom of the pocket makes room for the dock connector cable and AC adapter.

The purposes of the Socket Pocket, of course, are convenience and keeping your mobile electronics safe from spills of nearby beverages and you safe from tripping over cords. You will always know where you put

your device during the charging process and that it's out of harm's way. The Socket Pocket decreases clutter as well.

As easy as it sounds to just drop your device into the Socket Pocket, you'll first have to find a noticeable outlet where you can place it and then remove your existing wall plate and replace it with a Socket Pocket plate.

The Socket Pocket two-pack costs 10 bucks and comes in six different colors. To purchase, visit www.socketpocket.com.

Perfect Curve was started in 1994, and its bounty of innovations can be discovered all across the retail plain at such recognizable outlets as Bed, Bath & Beyond, Wal-Mart, Lowe's, The Container Store, Hat World, and Lids. For more information, visit www.perfectcurve.com.

EmploymentCrossing is the largest collection of active jobs in the world.

We continuously monitor the hiring needs of more than 250,000 employers, including virtually every corporation and organization in the United States. We do not charge employers to post their jobs and we aggressively contact and investigate thousands of employers each day to learn of new positions. No one works harder than EmploymentCrossing.

Let EmploymentCrossing go to work for you.
